

Gursharan Dhillion, Chandrashekhar Chincholkar, and Dr. Manne Venkateswarlu join Customized Energy Solution's Emerging Technologies Consulting Group

Pune, India, 11th November 2022: Customized Energy Solutions (CES), a global energy consulting and services company providing solutions in electricity markets and emerging technologies for 24 years is expanding its Emerging Technologies (ET) consulting group with the addition of three experts from different fields and subject area.

CES welcomes- Dr. Manne Venkateswarlu as Director, Emerging Tech, R&D team, Chandrashekhar Chincholkar as Director – Corporate Advisory and Gursharan Dhillion as Director, eMobility, Consulting.

CES ET team has worked with wide range of domestic and international clients. The team has helped over 100 clients with market advisory, strategy consulting, investment advisory, technology due-diligence and product development in renewable energy, energy storage & eMobility sector. The team has also developed best practices and algorithm development for energy management in electric vehicle charging station, battery management and energy management systems.

With over 32 years of experience in Corporate Finance, Capital Markets, Manufacturing and Consulting at various capacities, Chincholkar is working on Corporate Fund Raise, M & A, Start-up ecosystem and Institutional Services in the new energy space at CES India.

Dhillion has over 25 years of Automotive industry experience with leading strategy and Sales & marketing for major auto OEMs.

Dr. Venkateswarlu brings 20-plus years of experience in advanced materials and lithium-ion battery technologies, with specific expertise in high energy and power density batteries for e-mobility and energy storage applications, from R&D pilot scale to commercial cell-level production.

Customized Energy Solutions Ltd. has been recognized regionally and nationally for its impressive and sustained growth. The company is a pioneer in boosting deregulated electricity markets in the US and aims to replicate the same success in India.

About Customized Energy Solutions (CES)

CES is one of the fastest growing energy consulting & services companies, operating in North America for the past 22 years, working with over 500 clients across the value chain of electricity industry globally. CES started India operations in 2010. CES Emerging technologies team has been recognized for global thought leadership in energy storage, electric vehicles, smart grids and microgrids. CES specializes in evaluation & commercialization of next generation energy technologies. CES has global experience in advancing policies for supporting competitive energy markets and emerging technologies. CES works with C&I customers to help reduce their energy costs through better utilization of the energy markets, renewable energy and emerging technologies for improving sustainability & moving towards net zero goals. CES helps clients from the feasibility study through implementing solutions & offer services to optimize operations.
